

Daniele Ronchetti

Scientist for Data Analysis

✉ Email **in** LinkedIn  GitHub

About me

I am a results-driven individual with a passion for computational problem-solving and software development. With expertise in Python, MATLAB, and $\text{\LaTeX}$, I bring technical precision to every project. My collaborative approach and dedication make me an effective team player and a reliable leader in cross-functional environments.

Personal Information

Daniele Ronchetti
Nationality: Italian
Born: 6 Sept. 1996 in Lecco, IT
 Schreinerweg 36, 22549 Hamburg, DE
 +39 339 8544355
 +49 157 52474668

Programming and Tools

Python • $\text{\LaTeX}$ • Linux • Git
• GitHub • Jupyter

Figures

 70% proposals' acceptance rate (7/10)
 Participation in 23 experiments (1 as main proposer) at XFEL facilities worldwide
 7 talks at international conferences

Languages

Italian	C2
English	C2
Spanish	A2
German	A1

Publications

EXPERIENCE

Scientist for Data Analysis

EUROPEAN X-RAY FREE ELECTRON LASER (EUXFEL)

2026–present
Schenefeld, DE

Internship Trainee

SACLA, RIKEN

2024–2024

Sayo, JP

Planned and performed **experiments at SACLA large-scale X-ray Free Electron Laser facility**, supported external users, and developed **Python modules** for large-dataset analysis and experimental setup control.

Tour Guide

DEUTSCHES ELEKTRONEN-SYNCHROTRON (DESY)

2023–2026

Hamburg, DE

Led technical and dissemination tours for non-expert audience.

PhD Researcher

FS-TUXS GROUP @DESY

2021–2026

Hamburg, DE

Investigated methods for controlling x-ray scattering through the manipulation of transient electronic states. **Simulated** out-of-equilibrium x-ray scattering, **led** experimental campaigns at X-ray Free Electron Laser facilities. I specialized in **non-linear and attosecond x-ray science**. Developed **Python tools** for large-dataset analysis and **supervised** one B.Sc. student and two interns.

Teaching Assistant

UNIVERSITÄT HAMBURG

2023–2023

Hamburg, DE

Conducted exercise classes for the course of Physics IV (Solid State Physics).

Master Thesis

COSMOS LAB. @POLIMI

2020–2021

Lecco, IT

I have built, tested and characterized a custom coherent Raman spectrometer using MATLAB for signal processing and data analysis.

EDUCATION

2026 Physics

Dr. Rer. Nat.

Universität Hamburg

 Hamburg, DE

2021 Engineering Physics

Master of Science

Politecnico di Milano

 Milano, IT

MAIN SKILLS

Data Analysis

=====

XFELs' science

=====

Python

=====

$\text{\LaTeX}$

=====

AWARDS

European XFEL 2025 Users' Meeting
UOEC PhD Posters Prize - 21.01.2025

"You play how you train"
